

To Whom It May Concern:

This letter serves to confirm Ms. Shanice Abigail's internship at Optimai Pte Ltd, from May 2018 – July 2018. Optimai specializes in providing financial IT solutions for stockbroking and asset management companies. Ms. Abigail worked as a software engineering intern, where she has demonstrated to be able to apply her skills as a programmer as well as being a responsible team player in our company. As we move towards to having a web platform, Ms. Abigail was tasked with assisting in the shift from our existing windows client application.

We have outsourced the initial phase of project development to external partners, and Ms. Abigail is required to understand the project requirements and ensure that the requirements are met and perform code review, so that we will be able to take over the source code in due time. Though her stint was short, her efforts and proactivity at work proved her competence and was eventually entrusted with liaising with the external partners directly on her own. She also provided us with prompt updates on the project and raised questions when in doubt, to ensure the project is not stalled or delayed unnecessarily.

All in all, Ms. Abigail has a very positive working attitude and has proven to be a valuable member of our team. Please feel free to contact me, if more information on Ms. Abigail's internship is needed.

Sincerely,
Bernard Loh
